

This week's homework (13.07.20).

Hi 6PN and 6PN. This is the last homework pack I am making for you as the summer holidays start next week and these work packs will not continue over summer.

Like you, I feel disappointed, angry and heartbroken that we did not have the chance to say goodbye to each other. Every Year 6 before you have had a leaving party and I am extremely sorry that we cannot have one this year.

I am so proud of every single one of you and I have loved being your teacher. You are all superstars: you are going to do so well in high school!

Each of the **afternoon activities** will give you a chance to reflect on and celebrate your time at primary school! Please email me a picture of your work if you would like to share anything with me. One of the activities is to write a letter to your favourite teacher and I can email it to the relevant teacher if you send me a picture of your letter.

Thank you, 6PN and 6SD!
I am going to miss you!! 😊

The Monkey Mystery at Animal Antics Zoo Maths Game

The Animal Antics Zoo is a popular tourist and school holiday venue. Harassed parents and excited children regularly fill the grounds, eager to see the enormous mountain gorillas, the cheeky baboons and the laughing chimps.

However, disaster has struck. Those troublesome primates have excelled themselves. One of them has sneakily taken the keys belonging to the senior keeper, and when no one was looking, has unlocked the enclosure and many monkeys have escaped! They are now causing mayhem around the zoo, pulling faces at the elephants, laughing at the leopards and flustering the usually unflappable flamingos!

But which monkey did the crime?

Your mission is to use the description of the monkeys to solve the clues so you can establish who let the pesky primates run riot at the zoo!

Clue 1: Zoo True or False?

Work out if these statements are true or false.

	True	False
If there are four enclosures each holding eight lemurs, there must be thirty-two lemurs altogether.		
One side of a pentagonal enclosure measures 18m. The perimeter must be 108m.		
0.25 equals $\frac{1}{4}$.		
XIX is the same as 18.		
$218 - 89 = 119$		
The giraffes have 24kg of food. They eat half. The remainder would be 12 000g.		
The penguin enclosure is closed for $\frac{1}{4}$ of the year. That means it is closed for four months.		
A child's ticket to the zoo costs £14.45. An adult's ticket costs £19.40. For two adults and one child, the price will be £53.25.		
Annual membership to the zoo for one adult costs £60. That works out at £5 a month.
